Fugitive (4 episodes). 24. 1. Profugos 1. 2. Profugos 2. 3. Profugos 3. 4. Profugos 4. A: I think I found it. The series is called FUGITIVE in which the Latin title would mean "The Escape." Q: Illustrator CS6 Changing Path Type I was wondering if there was a way to change the path type in Illustrator. I'm trying to make a logo. I'm going to be making this and many more on the same base. I don't want to go through the whole process of creating the logo from scratch over and over again for each logo. I'm trying to make a circle with an outline effect and just wondering if I can change the type of path once so I won't have to go through the whole process again. A: The path type is based on a curve. If you make a circle, it will be a Bezier Curve. If you want the circle to have a more straight line feel, you'll want to make a rectangle, select all the points, go to Shape > Object > Path > Add Path, choose the Shape Type > Rectangle. You should be able to duplicate the shape and make a continuous curve out of it with the Copy Path feature, or a smart object. I went in the store the other day to grab some more Skechers for the winter and while I was there I stopped by to pick up the Skechers Go Tour 3. Unlike the Go Team edition that was released in October, this is the more "basic" model for the year. Why did I say "basic"◆
